@date.parse(Long.toString(MySqlDateTime.dateFormat.parse(dateString)).getTime());[Changes in brain microcirculation and lipid peroxidation in patients with cerebral ischemia and different methods of drug treatment]. Using the rheoencephalographic method, the central blood flow parameters and the brain LPO level have been studied in patients with vertebralbasilar insufficiency complicated by diffuse cerebral ischemia. The results of the study indicate increased LPO levels and a decrease in the cerebral blood flow in the initial stage of ischemia. Therapeutic regimes, which combine a daily treatment with an antagonist of Ca-channels and a daily treatment with an antagonist of dopaminergic receptor, have been found to be most effective.CID: Saturate Insanely CID: Saturate Insanely is an advanced gauntlet for the C.I.D. Suits that allows the units to use their Suit's ability to use the exterior of the Suit as a platform to attack enemies. This gauntlet, along with the battle gear, allows the C.I.D. agent to use the entire suit as one giant living weapon. This C.I.D. Suit has the function/ability to use the exterior of the suit as a platform to launch electrical attacks against enemies. C.I.D. Suit Features Fighting Suit The C.I.D. Suit consists of an armored suit with a chest plate and a hand with three fingers and a thumb. It also has a chin-plate that makes it a perfect partner to the C.I.D. Unit. Suit Design and Combat It has a 3-D animated process where C.I.D. agent can move around on the exterior of the Suit in a 3D environment. It can
